MEDIA RELEASE

BDL integrated MRSAM test fired successfully

BDL integrated, Medium Range Surface to Air Missile (MR SAM) was test fired successfully at ITR, Balasore on 30 June and 1 July, 2016. The missile is jointly developed in India by DRDO and Israel Aerospace Industries (IAI), Israel which is integrated at BDL, Hyderabad. The missile test firing has met all its mission parameters. The missile is first of its kind in its class having a range of 70 Kms, mainly used by Air Defence System.

Bharat Dynamics Limited (BDL) is the "Production Agency" for the missile for Indian Air Force and the lead integrator for MR SAM Weapon System for Indian Army.
